Semarang, Indonesia

ABOUT ME

Fresh graduate in Electronic Engineering at Semarang State Polytechnic with a strong interest in electronic projects, control systems, PLC, and Internet of Things (IoT). Have experience working with electronic circuits, microcontroller programming, and system troubleshooting. Adaptable, detail-oriented, analytical, and able to work both independently and in a team. Highly motivated to continuously learn and develop my skills to improve efficiency and performance in the field of electronic engineering.

EDUCATION

2023 - 2026 Semarang State Polytechnics **D3 Electronics Engineering**

2019 - 2022 SMA Teuku Umar Semarang **Mathematics and Natural Sciences**

INTERNSHIP AND EXPERIENCE

Sept - Dec 2025 PT. INDOMAKER

As a research team

- Designed and developed IoT-based systems for prototype and research purposes
- Produced and assembled PCBs, including circuit design and component soldering
- Designed 3D models and performed 3D printing for product prototyping
- Operated laser cutting machines for acrylic fabrication with precision and safety compliance

PROJECTS

- Smart Garage System Number Plate Recognition
- Arduino, ESP, and Raspberry Pi Trainer Kit
- Early Warning System
- Smart Water Level Monitoring
- Smart Parking System With Ultrasonic Sensor

SKILLS

Hard Skills

- PCB Designing and manufacturing
- Arduino IDE Programming
- Electrical & Electronic Measuring Tools
- Sensor Integration & IoT Systems
- PLC Programming (Ladder Diagram)
- 3D Designing and Printing

Soft Skills

- Communication and teamwork
- Time management
- Adaptability and problem-solving
- Responsible and disciplined
- Able to work independently and collaboratively

CERTIFICATION

- Event Committee Assistant - WARNA (2024)
- Industrial Automation Competency Certificate - BNSP

LANGUAGES

- Indonesian (Native)
- English (Professional Working Proficiency – TOEIC Score: 600)
